Contractor shall provide the Lets Code It Kool Katz program at Golda Meir School for two 8 week sessions. The class will take place on Tuesdays from 3:00 to 4:00 PM. This course will immerse students in the world of computer programming. Participants will have the opportunity to design games, explore animation, and combine music and art with coding. This class uses the block-based programming system Scratch, which was developed by the MIT Media Lab to teach programming concepts. Topics covered include event handling, coordinates, conditional statements, user interface design, variables, logic statements, and synchronization. In addition to teaching programming skills, this course will also nurture students creativity and problem-solving skills. No previous experience is

necessary, just a desire to learn and have gigabytes of fun! Each participant will receive an award on the last day of the session, and will have the opportunity to earn Code Belts by demonstrating their learned skills!

complete tests. Video instruction, audio explanations and vocabulary builders help students learn at their own pace. MTP recognizes and leverages student preferences with appropriate voices, lesson length, feedback and the opportunity to re-take lessons until they get it right. Students and teachers will get immediate feedback to quiz and ACT practice test results, pinpointing strengths, weaknesses and areas of focus. Robust report tools are included. Contactor will provide an on-site MTP training session for TEAM GEAR UP educators at a district location of MPS choice on a mutually agreed upon date and time. Live web/conference call training is an available option for TEAM GEAR UP to consider. Contactor shall also provide data to Milwaukee Public Schools needed to complete summative and formative evaluations for the United States Department of Education, TEAM GEAR UP grant.
